PROFESSIONAL SUMMARY

Full-stack developer with experience in building scalable high-performance applications using **ReactJs** and **NextJs**. Focused on delivering efficient solutions to complex problems. In addition, trained in **cloud technologies**, including **Google Cloud Platform**, with experience in managing and optimizing cloud-based systems.

EXPERIENCE

Full-Stack Developer Intern

Aug 2023 - Oct 2023

CodeStreams Innovations Pvt Ltd

During my internship at CodeStreams Innovations Pvt Ltd, I worked extensively on web and mobile applications, handling front-end and back-end development. I developed user interfaces using HTML, Tailwind CSS, JavaScript, and ReactJs, ensuring a seamless and responsive design. On the back end, I implemented core functionalities with ExpressJs and integrated Google Firebase APIs for authentication and database management. Additionally, I gained hands-on experience with Google Cloud services, utilizing them for secure authentication and efficient storage solutions.

EDUCATION

Vellore Institute of Technology, Chennai

Sept 2021 – Present

Integrated Master of Technology in Software Engineering - CGPA: 7.96/10

Sri Ayyan Vidyashram Higher Secondary School

Sept 2019 – July 2021

HSC Percentage: 91.5%

St. Mary's Matriculation Higher Secondary School

Sept 2017 – July 2019

SSLC Percentage: 87.4%

SKILLS

Languages: Python, Java, C++

Frontend: ReactJs, NextJs, HTML, CSS, Bootstrap

Backend: NodeJS, Postman, Json Web Token(JWT)

Mobile Development: React-Native – Expo GO

UI/UX: Figma, XML, Material-UI, Tailwind-CSS

Databases & Version Control: Firebase, OracleSQL, MySQL, Git, GitHub

Game Development: Unity Game Engine

Cloud & DevOps: Google Cloud Platform, Firebase Cloud Messaging

PATENTS

Smart Backpack with Integrated Location Tracking, Power Support, and Emergency Features

Publication Under Process – 2024 (K&K Ref No: PS00020319)

Developed an innovative IoT-enabled smart backpack featuring real-time location tracking, moisture detection sensors, and an emergency SOS alert system. The backpack integrates multiple power sources, including piezoelectric energy and solar panels, ensuring sustainable power solutions while enhancing user safety and convenience.

PROJECTS

IoT-Based Smart Backpack with Integrated Location Tracking, Power Support, and Emergency Features

Tech Stack: ESP32, GPS Module, Moisture Sensor, Load Sensor, Temperature Sensor, Solar Panels
Engineered a smart backpack featuring real-time GPS tracking, environmental monitoring, and renewable energy harvesting. Integrated moisture and load sensors for item protection, an emergency alert system for safety, and a user-friendly interface for loss prevention and real-time monitoring.

AI-Based Content Generator with Editor

Tech Stack: AI, NLP, Web Development, Gemini API, Clerk, Neon
Developed an AI-powered content generation tool for professionals, researchers, and content creators. Integrated multiple APIs, including Gemini for AI-driven prompts, Clerk for advanced editing, and Neon for content optimization, offering real-time editing and workflow automation.

Trip360 - Travel Advisor Website

Tech Stack: NextJs, ReactJs, Gemini API, Firebase, GoogleAuth
Developed a travel advisory website to explore the main attractions in Tamil Nadu. Integrated details on hotels, restaurants, and flights, along with real-time distance calculations for optimized travel planning. Implemented an AI-powered chatbot using Gemini API to provide personalized travel assistance and recommendations.

Customer Churn Analysis

Tech Stack: Python, Machine Learning, Pandas, Scikit-Learn
Built a machine learning model to predict customer churn in subscription-based businesses. Applied data preprocessing, feature engineering, and logistic regression for predictive analysis. Developed interactive dashboards for visualizing insights and improving decision-making.

ACHIEVEMENTS AND AWARDS

Google Cloud Arcade - Cloud Skills Boost	GCP
<i>Season 1: December 2023 Season 2: January – July 2024</i>	
• Season 1 (December 2023): Scored 56,765 points, securing a position in the Gold League. Earned 37 skill badges and gained hands-on experience through various cloud labs and challenges. • Season 2 (January – July 2024): Scored 74,285 points, reaching the Diamond League. Collected 33 skill badges while enhancing cloud expertise with advanced hands-on labs and problem-solving activities.	

VOLUNTEERING

Event Managers Club, VIT	2022 - 2023
<i>Marketing Team Member</i>	
I worked with a team to plan and promote events, ensuring they reached a wide audience and generated engagement. I also developed marketing strategies and social media campaigns to enhance visibility and participation.
